Participant Levels

All levels are welcome — enthusiasts, pro's, or complete beginners. You set your own pace!
We do recommend putting in some training beforehand — it's always more fun to drop someone than to be dropped, right?
Prefer a more relaxed pace? No problem! There are afternoon workshops, or you can rest, walk around the domain, or socialize in the cycling café.
In 2026, there will also be optional pace groups to join.

Strava competition

For those who've been riding kilometers on Zwift during winter, or anyone who enjoys a little friendly competition — we've got a casual Strava competition (M/F).
For safety reasons, timing will only be measured on climbs and uphill sections.
Riding in the **Bioracer** leader's jersey on day two? Then don't hide on the segments!
Besides the yellow jersey, there will also be fun side competitions — not only the fastest will earn flowers!

Safety & insurance

There are no course marshals during the rides. The official road code always applies — Belgium Bike Fest is not a race.
Just like in other sportives or group rides, riders are expected to drive safely and courteously.
Each participant is covered by an additional liability insurance (BA).

Equipment

We recommend a standard race or gravel bike.
If you prefer only off-road, you can of course bring a mountain bike.
E-bikes are welcome but not included in the competition.
Please have your bike checked before the event.
